

Journey-Evo

Welcome Home

Comfort at your fingertips

Select your desired seat position with capacitive controls. Reliable. Clean. Beautiful.

Privacy when you need it

The Journey-Evo provides an environment that caters to shared experiences, but when needed, offers a private space that is all your own.

Beautiful displays

Kick up your feet and enjoy your own personal theatre experience via the latest in-flight entertainment technology.

Treat yourself

Flexible deployment for every occasion

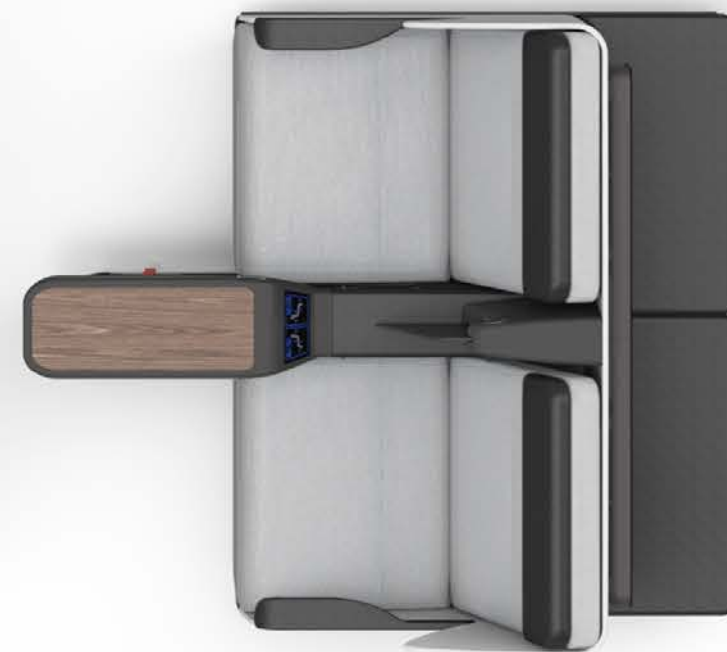

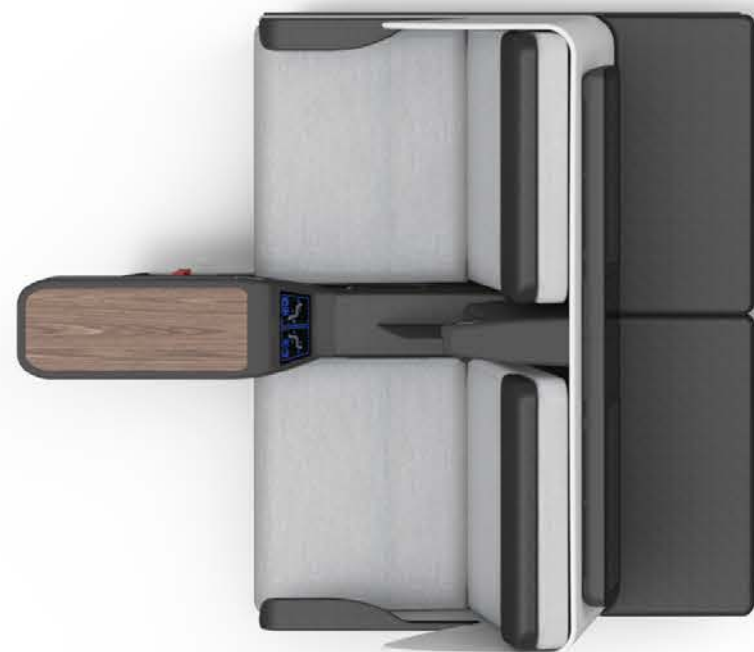

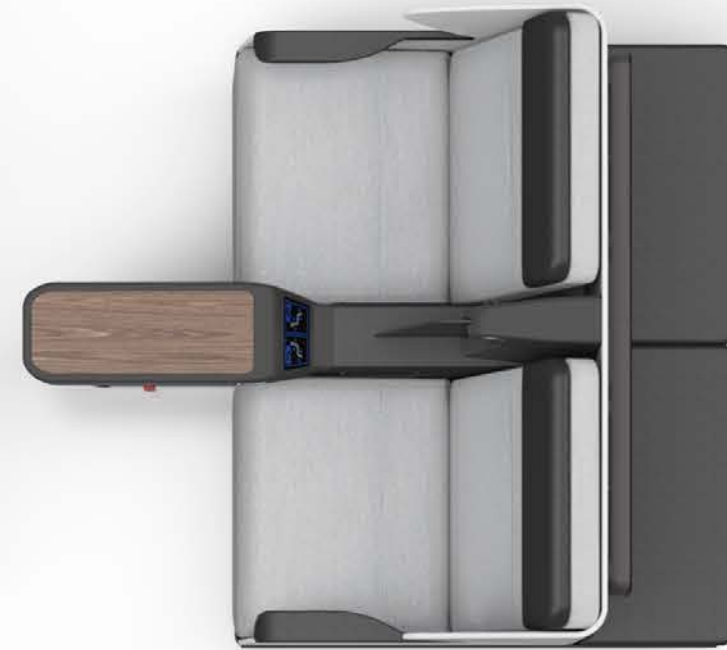

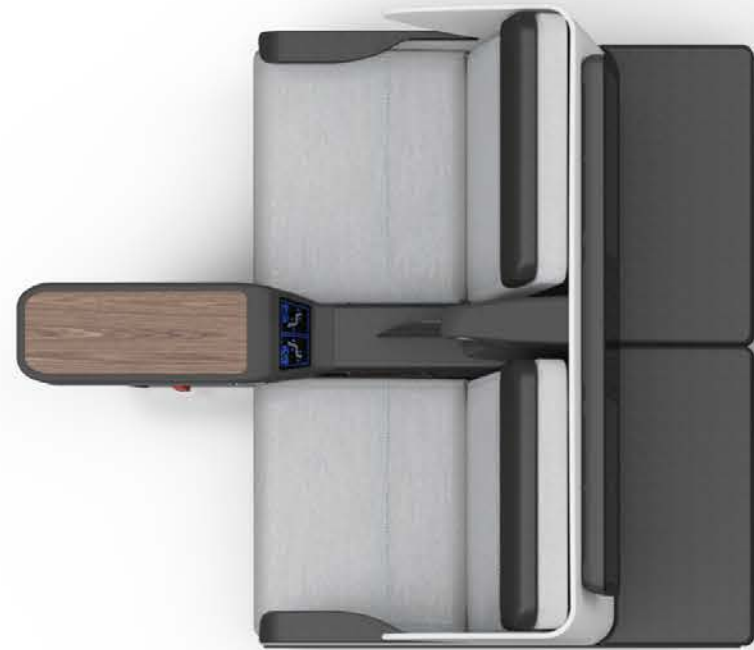

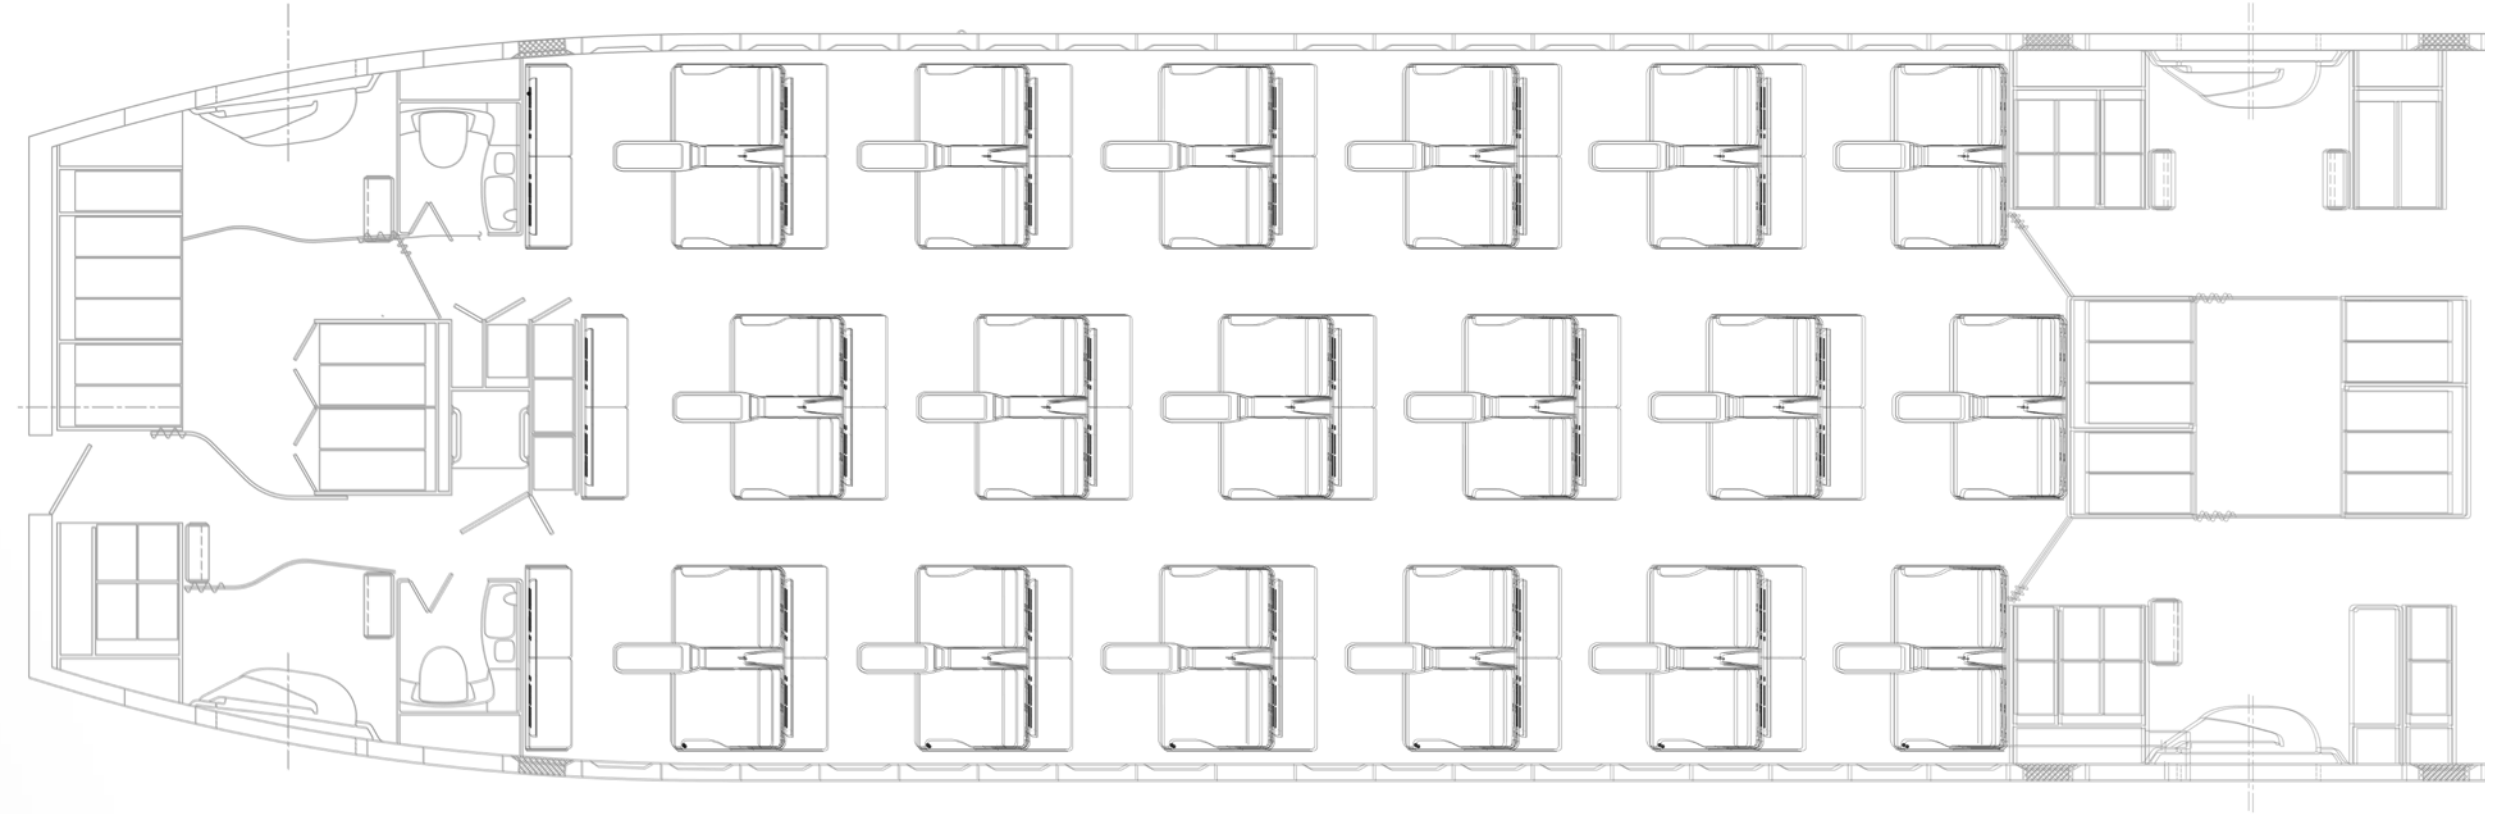

Rest easy

Enjoy the full comforts of home on a full flat rectangular bed.

Form and function Become one

Advanced materials and processes work in tandem with classic design to achieve the lightest seat in its class.

*“Quality, meet
Affordability..”*

By combining design and manufacturing ingenuity, Journey-Evo meets a need that increasingly drives business — cost. While constantly challenging ourselves to reach a higher standard, we at Jamco have created an extremely competitive product that compliments the 787 beautifully.

Journey-Evo

We invite you and your team to experience the next evolution in business class seats.

Spatially, Structurally, and Aesthetically optimized for the 787 platform.
